RE:SOLUTIONS 2021

RE:INVENT YOURSELF - HOW DO YOU WANT TO EAT?

Keto, Paleo, Plant-based. No more excuses - It's time to get back on your plan to kick off the new year. Your favorite diet plans are still around and still providing the same support. **See our article on page 9 that reminds us of the benefits of each of these plans.**

RE:IMAGINE YOUR LIFE - WHAT'S NEXT?

Get a pet, read a book, unplug from social media. What better gift to start the new year than to unplug a bit from all the daily stresses. Variety is important for the brain. Switching to a different pastime or playing with a pet is just as important as taking supplements for support!

RE:BOOT - WHAT IS YOUR FITNESS PLAN?

Movement – cardiovascular, strength, stretching. Exercise may be the hardest, especially since it is still winter, so start small. Set some incremental goals of "steps per day", core strength workout, 5 minutes of deep breathing, or morning yoga stretches. Maybe join a zoom workout class for accountability. The most important part of making this part work is picking a plan you will stick with. Consistency is important. You can do it!

RE:ENERGIZE - WHAT'S ON YOUR MIND?

Memory and cognitive support – Every day advancements are being made with products that support our brain health. **See page 12 for our list of the best products we recommend!** Do not worry, what may seem like information overload from 2020, can easily be put into perspective with a few brain exercises & supportive nutrients.

RE:LEASE - STRESS & ANXIETY WORRIES?

Sleep, relaxation, positive energy. None of the suggestions above will work if you do not commit to adding relaxation, good balanced sleep, and positive thoughts into your daily regimen. **Check out the article on page 13 for some suggestions on key nutrients to support this category.**

RE:CHARGE - NEED A BETTER IMMUNE SYSTEM?

Drink lots of water; take daily immune support supplements. Lesson learned from 2020: it is important to keep your immune system strong and healthy. **Check out the back cover for our newly updated list of key immune supporting nutrients to add to your mix.**

OUR MISSION

GreenAcres Market & Deli is your community Natural Foods Market committed to providing:

Quality Education | Dedicated Customer Service | Fresh, Natural & Organic Products | A Unique Shopping Experience

In order to improve the health of our community one person at a time.

RE:INVENT YOURSELF – HOW DO YOU WANT TO EAT?

HERE IS A QUICK REVIEW & PRODUCT SUGGESTIONS FOR THE THREE MOST POPULAR DIET PLANS

KETO: The basic premise is to increase healthy fats to get your body to use fat as a form of energy. The belief is it takes fat to burn fat. Reducing carbs causes cells to shift to burning fat for fuel - a process called ketosis. Once initial weight loss is achieved safely most people settle into a keto light diet that has a more balanced ratio of fat/protein/carbs.

Suggestions:

• 65-70% High Fat • 20-30% Protein • 5-10% Carbohydrates

HIGHLIGHTED PRODUCTS

• Choc Zero • Birch Benders Pancake Mix • Lakanto Syrup • GOL Keto Meal • Good to Go Keto Bars • Bhu Keto Bites • Catalina Crunch Cereal

PALEO: If the cavemen & women didn't eat it you shouldn't either. Say goodbye to refined sugar, dairy, legumes & grains & hello to meat, fish, poultry, fruits & vegetables. Staying primitive with your diet helps reduce risks of modern day diseases that resulted from the introduction of processed foods.

Suggestions:

• Focus is more on types of food, less on ratio of proteins/fats/carbs • Diet tends to be higher protein intake overall

HIGHLIGHTED PRODUCTS

• Hu crackers • Simple Mills Pancake Mix • Miss Jones Not Cornbread • Primal Kitchen Avocado Oil Mayo
• Siete Grain-Free Tortilla Chips • Lesser Evil Paleo Puffs

PLANT BASED: This plan focuses primarily on foods from plant sources. Includes fruits, vegetables, seeds, oils, whole grains, legumes & beans. Being plant based doesn't necessarily mean you are vegetarian or vegan - you just get a larger portion of your food from plant sources. Some still enjoy meat & dairy periodically.

Suggestions:

• Make the plant based foods the main portion on your plate & garnish with everything else
• Source organic when possible for plant based to maximize available nutrients

HIGHLIGHTED PRODUCTS

• Miyokos Vegan Cheeses & Butters • Daiya Dairy-Free Cheeses & Pizzas • Silk Almond Milk • Orgain Plant Based Protein Powder
• So Delicious Plant Based Ice Creams

A successful diet plan is one that you enjoy, is sustainable with your lifestyle & satisfying. Deprivation is not a good long term plan & moderation is key. All three plans promote portion control & elimination of refined foods & sugars.

RE:ENERGIZE YOUR MIND - SOLUTIONS

The most important part of supporting memory & cognitive function is providing nutrients that reduce inflammation, increase circulation, help eliminate brain fog & support cellular health.

Brain function can range from extreme fatigue to agitated & overused, often aging the brain quicker than it should. How many times have we said: "If only my brain worked better" "If only I could remember the little things"

Our brains need constant nutritional support, and stress reducing efforts to remove the "noise" and let the brain function as it should: balanced & alert.

These are some of the most innovative products we have available to help you feel like you have taken years off your "brain age". *Come talk to our educated staff members today to find out which formula is right for you!*

Daily IMMUNE HEALTH +

The last year taught us one thing: immune support is not only a fall or winter concern. The pandemic of 2020 made us realize that immune health should be a year-round concern. **Colloidal Silver can deliver fast immune support.** Colloidal Silver in addition to Echinacea, oregano, zinc, and elderberry has become a mainstay for wellness. Proven in research, it is one of the fastest immune boost/support items in premier health food stores. While it can be combined with herbs or supplements, some people believe that Colloidal Silver is truly an all-in-one-stop to restore, strengthen and support your immune system when you need it most.

•**It is safe for adults, children, and pets.** It is simple. For safety, absorption and bioavailability, Colloidal Silver consists of tiny silver particles (1-100 nanometers). These tiny silver particles exit the body within 6-8 hours.

•**What is PPM?** Strength = PPM (parts per million), which is the number of silver particles per serving or strength of the product.

•**How much colloidal silver should I consume?** Companies commonly debate if 10PPM, 50PPM, 250PPM or 500PPM is the best. This will vary depending on use.

How much do you need to take?

•**Daily Immune Support-** 1 teaspoon (5mL) of 50PPM

•**In Presence of Others with Compromised Immune System, Traveling or Moderate Immune Support-** 1 tsp (5mL) of 250PPM 1-2 times per day for 5-14 days.

•**Extra Strength Immune Support-** ½ to 1 tsp (5mL) of 500PPM 1-2 times per day for 14 days.

RE:LEASE STRESS, ANXIETY & WORRY

Stress, anxiety & worry can put unnecessary pressure on a key organ system in the body, our adrenal glands. The adrenals are designed to regulate stress & anxiety, but they can get overloaded & give out. You may recognize the phrase "fight or flight" – it is how the adrenals handle excess stress & trigger us to respond.

To help alleviate symptoms & reduce the exhaustion that results, it is important to support your adrenals with key nutrients including powerful adaptogenic herbs like ashwagandha, amino acids like 5HTP, and CBD.

These are a few of our top picks – both as individual ingredients and powerful combo formulas.

Come talk to one of our educated staff members today to find out which product is right for you!

NEW CHAPTER WHOLE FOOD VITAMINS FOR MEN AND WOMEN

24 TABLETS

\$16²⁹ (Reg. 24⁹⁹)

Naturally BOOST YOUR IMMUNE SYSTEM WITH FERMENTED MULTIVITAMINS!

Over the years experts have told us it is not what you eat, but what you absorb. New Chapter has created essential nutrients your body can recognize for immune, energy, stress, and beauty support.

FERMENTATION MAKES THE DIFFERENCE:

Whole Food Multivitamins from New Chapter deliver vitamin and mineral nutrients that have been incorporated into *Saccharomyces Cerevisiae's* (brewer's yeast) cell structure. Your body recognizes this familiar cell structure and can unlock the nutrition that is within. Fermented nutrients are not only recognized by the body as food, but they are also gentle enough to take anytime, even on an empty stomach. Fermentation increases the antioxidant strength of nutrients. As an example, fermented vitamin C shows almost an 80% higher antioxidant potential than plain ascorbic acid. More potency equals more power to fight free radicals that may be weakening your immune system.

NUTRIENTS ARE INCLUDED:

Fermented Zinc, Vitamins C and A as well as eight essential B vitamins for energy metabolism.

COMPLIMENTARY HERBAL BLEND:

Antioxidant rich herbals are included in the signature Immune support blend – including Elderberry, Eleuthero, and Astragalus.

GENDER SPECIFIC FORMULAS HAVE SPECIAL INGREDIENTS FOR BOTH MEN AND WOMEN:

- For Her: Heart, brain, bone, breast health, and digestive support
- For Him: Brain, prostate, stress, and digestive support

IT IS A NEW YEAR! Are you ready to feel the difference from your multivitamin? Try these exciting additions to your daily health maintenance program and discover the New Chapter fermented difference. All are non-GMO certified and NSF certified gluten-free. Ask a team member at GreenAcres market which would be the best choice for you to try in 2021.
