Many people have heard of the product Flor-Essence, a traditional herbal tea created from eight herbs.

Flora believes that true health begins and ends within the digestive system. Taking Flor-Essence Tea helps the body achieve a new, vibrant equilibrium. This time-honored formula has unique synergistic properties which help to gently detoxify and rejuvenate the entire body. Flor-Essence is a formula that is safe and effective for everyday use, short term, and long term.

Introducing Flora Immune Essence:

How can you improve an already exceptional health product? Immune-Essence is Flora's latest liquid formula. It starts with the eight Flor-Essence herbs in their usual tea at full quantities and then adds medicinal amounts of the fruiting body of Turkey Tail mushroom as well as Turmeric.

- The Flor-Essence herbs work in synergy to support the organs and systems of elimination in removing wastes and toxins.

- Turkey Tail, a colorful mushroom found in forests around the world, is known for its water-soluble, immunomodulating polysaccharides that activate immune cells & enhance T-cells. It is a strong antioxidant that has shown to be supportive of the immune system during chemo/radiation treatments.

- Turmeric is prized throughout the world for its positive effects on the digestive system and in relieving joint pain.

This formula offers gentle yet potent support to the detoxification, digestive, and immune systems of the body. **For best results, drink daily for several weeks.** Mix 3 tablespoons of Immune-Essence with an equal quantity of hot water and sip up to three times per day on an empty stomach.

Turmeric: Known for reducing inflammation and joint pain, turmeric also stimulates bile production, which aids in digestion, especially of fats.
