IT'S TIME TO GRILL

Locally!

It's grilling season & what better way to kick it off than supporting your **LOCAL MEAT VENDORS!**

At GreenAcres we are proud to support local meat purveyors & give our customers access to healthy, clean meats that taste great!

We have everything from chicken, pork chops, ground beef, hot dogs, sausages, hamburgers & steaks!

WE HANDLE OVER 15 DIFFERENT LOCAL & REGIONAL VENDORS THROUGHOUT OUR STORES!

We realize it's tough for all local producers to provide product year round so we often rotate between vendors to make sure you still have enough selection to satisfy your meat needs! If it isn't available locally, then we partner with our distributor Alberts Organics to bring in regional vendors that also focus on producing clean, healthy, organic & all natural meats.

WE ARE EXCITED TO INTRODUCE OUR NEWEST PARTNER, RED TOP FARMS. AVAILABLE IN ALL OF OUR STORES JUST IN TIME FOR GRILLING!

Please note not all vendors are available at all stores, so please check with your local GreenAcres to find what you are looking for.

WHAT ARE AMINO ACIDS?

Amino acids are the building blocks of the human body. There are 22 of them and they are what all the various proteins, collagen, bones and hormones in your body are made of. If you don't have enough in the right quantity, your body cannot keep up with its daily needs and starts to fall behind, causing all sorts of physical conditions, illnesses, and slower recoveries and unhealing injuries.

"When you eat protein, your body breaks it down into its most basic form, which are amino acids. It then re-constitutes them to build or repair the muscle, bone, tissue, or other protein. So, your protein is literally only as good as it can be utilized by the body to make body protein."

- David Minkoff, MD, Founder of Body Health

* You are able to find good sources for amino acids in foods – but many individuals benefit from adding amino acid supplements, even if they aren't focused just on athletic performance.

Main benefits:

- Increased endurance
- Greater fat burn
- Reduced fatigue
- Increased muscle growth
- Increased mental focus
- Improved muscle recovery
- Reduced muscle soreness

Good Food Sources:

- Quinoa
- Eggs
- Turkey
- Fish
- Cottage cheese
- Mushrooms
- Legumes and Beans

Are You Searching for the
PERFECT PROTEIN?

Most people know protein is essential for optimum health, but assume they consume enough through food. So why do we need an amino acid supplement? Because it is not about how much protein you are consuming, but how much your body is able to use. Eggs, meat, fish, and nuts and even whey and collagen powders are less than 50% used as actual protein, with whey at only 17% utilized. They are mainly converted to sugar, fat, or waste. This leads to protein deficiencies with the effects including: Inability to lose weight, sagging skin, loss of muscle mass, brittle bones, slow recoveries from illness and injury, hormone imbalances, and much more. Protein deficiency is very often something you are aware of, but you just cannot identify, and neither can many doctors.

How do we remedy our protein deficiency?
What is the solution for better health?
The answer is simple: **Perfect Amino.**

Perfect Amino is a protein supplement that is 99% utilized to build new protein and collagen for your body, without the calories or excess waste. Try it once and you will never go back. Amino acids are the building blocks of the body.

Perfect Amino differences:

- The 8 Essential Amino Acids in Perfect Ratios
- Pure, Essential Amino Acids that are 99% utilized.
- 3-6x the protein of other sources with almost no calories
- Fully absorbed within 20-30 minutes!
- 100% vegan and Non-GMO.

Who needs Perfect Amino?

Practically everyone can benefit from Perfect Amino! Athletes – weekend warriors and advanced athletes, children, seniors, and anyone with chronic illness can benefit from this amazing product.

Stop into your local GreenAcres Market to discover the power of **Perfect Amino**. You will be amazed how much better you will feel once your body gets to 8 essential amino acids for body health!
